Clinical & Medical Negligence Claims ^[1]

For help and advice on Clinical & Medical Negligence Claims please contact our Personal

Injury team  ^[2]

If we are unfortunate enough to require medical treatment we must place all our trust in the doctors, nurses, surgeons and dentists who look after us. Whilst those in the medical profession have trained hard sometimes things, can and do, go wrong.

Sydney Mitchell's Clinical Medical Negligence Team has considerable experience of representing clients in relation to local doctors and surgeons who have been negligent in the service and/or provision of care. Previous examples include representing patients in successful claims against Mr Ian Paterson (disgraced breast surgeon) and Dr Arackal Manu Nair (prostate surgeon). Most recently we have been seeking to support patients who underwent brain or spinal surgery performed by Mr Hussein El-Maghraby (Consultant Neurosurgeon) following concerns reported in the local and national tv and press. (<https://www.google.co.uk/amp/s/www.bbc.co.uk/news/amp/uk-england-coventr...> ^[3])

If you have suffered damage caused by treatment, lack of treatment or misdiagnosis then you may be entitled to compensation for clinical negligence or medical negligence.

If a loved one's death has been caused by clinical negligence or medical negligence, you may still have a claim.

Clinical and Medical negligence compensation

Sydney Mitchell's expert clinical negligence and medical negligence lawyers can help unravel the complex legal issues surrounding this type of claim. They will determine whether you have a claim for compensation because of treatment by the medical profession. They will guide you through the process you need to go through, to secure a safe, financially sound future, for yourself and the rest of your family.

If you believe that you have suffered damage because of medical treatment or your loved one's death was caused by the negligence of a medical practitioner then contact US [4].

Clinical Negligence?

Have you or your family any concerns about spinal or brain surgery treatment received in a NHS or private hospital?

We are aware of serious allegations that have recently been made by the BBC against Mr El-Maghraby (Consultant Neurosurgeon) and if you wish to discuss any concerns that you have regarding the treatment received by you (or another member of your family) by this surgeon, then please contact us in the strictest confidence.
