Commercial Armour Legal Protection © ^[1]

Spread your legal expenses over a year

Running a business can be rewarding, but it comes with substantial challenges. Gone are the days when a business could simply operate to turn over a profit. You must ensure that your business operates within current applicable legislation from Data Protection to Product Liability.

Failure to do so could have devastating repercussions for your business. Any legal dispute that arises will inevitably divert management and financial resources away from core business activity.

Sydney Mitchell LLP offers a specialist product, Commercial Armour Legal Protection©, which allows you to focus on your business whilst we focus on your legal requirements and which, allows you to spread the cost.

Our commercial specialists will:

- Provide you with user-friendly and affordable advice
- Review all your standard trading terms to ensure they meet your business needs, the particular risks of trading in your sector and are up to date with current legislation.
- Ultimately reduce your risk of litigation.
